

NIVS New Functionality Release – 15th December 2020

Dear Colleagues.

Following our continued development and improvements to the application, a new functional development has now been released into Production.

New VALIDATION checks on Patient Registration:

There have been occurrences where the patient registration information pre-populated from the system has been over-written with different and incorrect data, therefore, once a records' NHS Number has been correctly identified, then the system will no longer enable you to edit these fields, as in the image below. The NHS Number and demographic details are vital to ensuring the Call/Recall and GP Systems are updated in a timely and effective manner.

The screenshot shows the 'Add Patient' form with the following fields and values:

- Radio Buttons:** Patient (unselected), Health & Care Worker (selected)
- NHS Number:** 9999999999 (with search icon)
- Forename:** Harri
- Surname:** Chapman
- Date Of Birth:** 28/05/1984 (with calendar icon)
- Gender:** Male (dropdown menu)
- Postcode:** CV33 9RZ (with search icon)
- Employee Number:** 77777777 (with search icon)
- Staff Organisation:** Lewisham & Greenwich NHS Trust
- Staff Type:** (empty field)
- Save Button:** Save

New REPORTING Summary Stats

Those with access to Covid Reporting will now see a LIVE dashboard on the home screen. This dashboard allows some quick glance statistics around the numbers vaccinated so far today, the numbers vaccinated yesterday and a running total value. These records have been broken down into 5 cohorts detailed in the screen shot below.

The screenshot shows the 'Vaccinations administered by my organisation' dashboard. The last refreshed time is 15/12/2020 07:32. A 'Refresh' button is visible in the top right corner.

| | Today | Yesterday | Total |
|--|-------|-----------|-------|
| Health & Care Worker - NHS Staff | 0 | 14 | 14 |
| Health & Care Worker - Local Authority | 0 | 0 | 0 |
| Health & Care Worker - Care Homes | 0 | 13 | 13 |
| Patients - 80 & Over | 0 | 5 | 5 |
