

NIVS Communications 29/07/2022

Good morning Colleagues,

Please be advised that we have successfully released a change to the Year 7 warning on NIVS.

Vaccine Type

Spikevax 0.1mg/0.5ml dose (Moderna) ▾

You have selected the Spikevax 0.1mg/0.5ml dose (Moderna) for a person under the age of 12 or in year 7. This is currently not advised by JCVI and is outside MHRA authorisations. This can only be administered on the instruction of a prescribing clinician e.g. Doctor. Please discuss the appropriateness of vaccination with the prescriber BEFORE vaccination. If they give authority to vaccinate it should be recorded as authorised under Patient Specific Direction (PSD).

Changes to Year 7 Warning TDW-5561
Successfully released: 28/07/2022 at 22:00

Kind regards,

National Immunisation & Vaccination System Support Team
