Innovative Solutions for NHS Provider Organisations and Provider Collaboratives

Governance and Leadership

- Maturity assessments
- Programmes focussed on the case for change, vision, priorities and capability gap analysis
- Governance model development

Workforce (Agency spend)

- Agency utilisation governance reviews and recommendations
- Harmonisation of agency rates
- Improve productivity and efficiency through application of controls and reporting

Workforce (Integrated planning)

- Workforce baselining and modelling
- Workforce planning using Anaplan platform
- Consultancy and specialist advisory solutions

Corporate and Shared Services

- Design, development and implementation of shared services spanning procurement, IG, HR and finance
- Case for change support to demonstrate efficiency gains

Clinical Service Sustainability and Redesign

- Prioritisation and sustainability reviews for fragile services
- Clinical redesign case for change and implementation
- Clinical analytics including whole pathway costing
- Robust programme management

Clinical Networks

- Supporting specialised services delegation including reviews of network maturity and development
- Mapping and reviewing established networks
- Designing and developing new networks

BI, Data and Analytics

- Data integration tools to facilitate elective activity
- PHM tools including segmentation, prioritisation (linked to inequalities) and risk stratification
- Solutions to improve elective activity data quality

Demand and Capacity Management

- Data driven dynamic capacity management across elective and urgent care
- Identification of high priority patient groups and care interventions to release capacity

Planning

- Integrated planning solution for finance, workforce, demand and capacity across orgs/pathways/progs
- Developing shared capacity planning between providers and across the ICS
- Operational capacity management

Financial Sustainability

- Intelligence driven integrated financial planning with workforce, capacity/service utilisation, performance and benchmarking analysis
- Creating financial strategies that generate value, aligning resource allocation with priority areas for improved health and care outcomes

Productivity and Efficiency

- Opportunity analysis for programme based productivity
- Analysis and recommendations for improving operational efficiency across suppliers, procurement, workforce, estates, IT and medicines

Social Value

- Social value strategies and pledges
- Frameworks for anchor institutions

Digital

- Digital reviews
- Strategic case for change development
- Digital solutions enabling increased access, changes to pathways of care and self-management (signposting to information and services, self-help, symptom checker)
